Office Action Summary

Art Unit: 1745

1. Newly submitted claims 1-21 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the product of claim 1 could be made by another and materially different method than that set forth in claim 22 such as by applying adhesive on both free faces of the electrodes and then joining the two faces to form the battery.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-21 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claims 23-25 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. (New Rejection)

There is no antecedent basis for “adhesive preparation temperature” found in line 4 of claim 23. This expression also appears in each of claims 24 and 25 and these claims are also rejected for the same reason.

Claim 27 should be amended to include proper Markush terminology to clarify the same.

3. Claim 29 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably

convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention. (New Rejection)

It is not seen where the limitations of claim 29 find support in the present specification.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 22-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Dasgupta et al.-US Pat. 5,437,692 (Dasgupta) (New Rejection)

See the Abstract of Dasgupta along with column 5, line 39 through column 6, line 32; column 8, line 63 through column 9, line 8 and Example 2.

Applicant's arguments have all been considered but are not deemed persuasive. It is noted that applicant has not argued the specific limitations of the above claims 22-24 because the same are presented for the first time in this application.

6. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1745

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is (703) 308-1795. The examiner can normally be reached on Monday-Friday from 6:30 to 4:00. The examiner can also be reached on alternate Wednesdays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Maria Nuzzolillo, can be reached on (703) 305-3776. The fax phone number for the organization where this application or proceeding is assigned is (703) 305-3599.
